

QEH SCHOOL ECO CODE

While we have time, let us do good!

We, the students of QEH School, are dedicated to building a sustainable future for our school, community and the environment. We are committed to making a positive impact and inspiring others to join us. Our Eco-Code reflects our values and aspirations:

- 1. BIODIVERSITY & WELL-BEING** – We continue to improve our Sanctuary Space, Wildlife Garden, *Greening our Classroom* project & Failand conservation projects to enhance biodiversity & promote well-being.
- 2. SUSTAINABLE USE OF RESOURCES** - We continue to reduce the use of single-use plastic products, recycle a range of items, reduce food waste & thereby help preserve the marine environment too.
- 3. ACTIVE TRAVEL** – We continue to promote more sustainable travel and change travel behaviour through award schemes and initiatives.
- 4. COMMUNICATE & ENGAGE** – We continue to engage and inspire the QEH School community through campaigns, workshops, Eco-Weeks, the BEP initiative & events linking sustainable practice.

By embracing this Eco-Code, we, the students of QEH School, aim to create a sustainable and thriving school environment.
